With all the additional chaos and anxiety caused by the pandemic over the past couple of years, hopefully the 2022 Thanksgiving season will be back to normal. Many people have never thought of Thanksgiving as 'normal', but as a time to try and tolerate extended family members and work at keeping the family dysfunction to a minimum...hopefully, that's not the case for you.

We would hope for everyone this Thanksgiving season that we can actually realize a potential silver lining brought on by the recent pandemic...and that is a new perspective on the many things we've been taking for granted all this time and being grateful for the simplest of things...coming together in the spirit of fellowship without the fear of making each other deathly ill...hugging each other instead of viewing our loved ones on a flat screen...and seeing laughing and smiling faces instead of being cloaked behind a facemask!

And while many are still struggling this Thanksgiving, we hope you can take a moment and practice some gratitude for all the opportunities and lessons this year has provided. There's always something to be thankful for on Thanksgiving, even if it's just not being a turkey.

May you enjoy the warmth of family this season and the harvest of the feast. Happy Thanksgiving!

ABOUT NOVEMBER

Rick Banas

November is National Alzheimer's and COPD (Chronic Obstructive Pulmonary Disease) Awareness Month.

Each year, we celebrate Veterans Day on Nov. 11 as a way of honoring all veterans for their service to our country and for their sacrifice to help protect our common good, our way of life, and our Constitution.

The Boston Female Medical School, the first medical school for women in the U.S., opened on Nov. 1, 1848, with 12 students.

In November 1860, Abraham Lincoln became the first Republican to be elected President, winning 40% of the popular vote.

The X-Ray was invented in November 1895.

The board game Monopoly was released in November 1935.

November is the only month never mentioned in any of the plays or sonnets written by Shakespeare.

November is probably best known for the celebration of Thanksgiving in the United States. President George Washington proclaimed Thanksgiving Day to be our country's first holiday in 1789. It was designed to be a day of prayer and public thanksgiving for the successful establishment of our republic.

Two popular foods served on Thanksgiving are turkey and cranberries.

The cranberry is a native American plant that is a relative to blueberries and huckleberries. The cranberry is considered a "Super Food" as it is packed with anti-inflammatory, antibacterial, and antioxidant compounds.

Wild turkeys are native to Mexico.

Only male turkeys gobble.

Benjamin Franklin thought the turkey would be a much more appropriate national symbol for the U.S. than the bald eagle.

WELLNESS

COVID-19 Here to Stay?

Deborah Denham RN, MSN, CPPS, CPHRM

Everyone has had a rough time over the last 30 months or so with all the COVID-19 restrictions and guidance.

Residents and staff have shown amazing adaptability and resiliency with the frequent rule changes and the change in normal routines. The Centers for Medicare and Medicaid Services (CMS), Centers for Disease Control (CDC), and State Health Departments are aligning their guidance and beginning to move towards a more sustainable action plan.

Initially it was all hands-on deck because of the unknowns of the virus and the shockingly catastrophic impact the virus had on our senior population. With time and the unprecedented global cooperation of the science community to bring a vaccine to the table in record time, we have been able to save countless lives and move away from the emergent responses necessary to prevent devastating loss of life.

The guidance for infection control in long term care settings is beginning to mirror actions taken during influenza outbreaks. There are still some necessary guidelines, but the overall current measures are resident centered with a focus on quality of life and resident rights. We, as a society, will continue to care for one another during rough times, this may require the inconveniences of intermittent mask wearing or isolating from others when infected. It is a hope that COVID-19 will fade into our routine daily lives and impact very few in the future like Smallpox or Measles.

Celebrating Fall

Donna F Littleton, Resident Services Coordinator

Fall is in the air and Christmas is just around the corner! The leaves are changing colors and have been especially beautiful this year and a chill is in the air. It is certainly one of my favorite seasons. Fall is a time to enjoy a of pumpkin flavored items, hot cocoa, apple cider , and warm baked cookies. Fall is a wonderful opportunity to spend time with family and friends to enjoy Thanksgiving and count our many blessings. I am thankful for my family, friends, pets and the relationships that I have developed with residents and staff here at Glasswater Creek. I am looking forward to having a delightful holiday season with everyone. Happy Thanksgiving!

Yours in Service, Donna
