## From the Desk of the CEO

Rod Burkett

Gardant Management Solutions was recently notified by the national firm “Great Place To Work Institute” and its senior care partner, “Activated Insights”, that the portfolio of assisted living communities managed by

Gardant met their standards to be recognized as a ‘Great Place To Work’ in 2023.

Gardant utilizes Activated Insights as the electronic survey tool to request feedback from all of the community level employees on an annual basis. There are approximately 3,000 employees across the Gardant portfolio delivering compassionate care and enriching the lives of 6,000 residents on a daily basis. This highly valued national recognition is due to the dedicated efforts provided by all our staff and from the focus and direction provided by our leadership teams at each of our communities throughout the year, and it is indicative of their dedication to serving residents and committing to ongoing quality improvement.

The Great Place To Work certification process involved surveying employees last fall at our 58 senior living communities and evaluating more than 60 elements of team members’ on the job experiences. These elements included the employee’s level of pride in the organization’s community impact, belief that their work makes a difference, and feeling their work has special meaning. The survey questions delve into the employee’s perceptions on their feeling of respect, camaraderie, fairness, credibility, and pride.

The Great Place To Work survey process is the most widely taken employee engagement survey tool world-wide. Activated Insights, as its senior care affiliate, serves as a global authority on high-trust, high performance workplace cultures. Activated Insights assists its clients to create great workplaces that outpace peers on key business metrics, such as revenue growth, profitability and employee retention. Great Place To Work awardees experience a 20% higher response rate of applicants for open positions than non-awardee companies, and those designated as Great Places To Work have a much higher retention rate in the millennial age co-hort.

I am extremely proud of our portfolio’s recognition in the Great Place To Work program and am even prouder of how this positive work culture impacts the daily lives of our employees and residents.

## Alzheimer Awareness

Chrisi Karcz AVP Clinical Operations

During the month of March, The Alzheimer's Impact Movement (AIM) Advocacy Forum will be held in Washington, D.C. It is the nation's premier Alzheimer's disease advocacy event. Volunteer advocates from across the United States will meet with representatives in an effort to advocate, bring awareness and advance policies to improve the lives of all individuals affected by Alzheimer's and all other dementia.

In 2022, more than 700 advocates painted Capital Hill purple to bring awareness and advocate after two years away due to the pandemic. Despite their absence at the hill, the Improving HOPE for Alzheimer's Act, the Promoting Alzheimer's Awareness to Prevent Elder Abuse Act and record increases in federal research funding occurred in 2021.

I am fortunate to have been invited as a Greater Illinois Ambassador to advocate March 19-March 21, 2023, in D.C. This is an opportunity to share our residents and families stories. In the coming months there will be opportunities for all our communities to also advocate. The Longest Day Event will be hosted on June 21, 2023, the day of the summer solstice and longest day of the year. In September, across the country the Walk to End Alzheimer's will be held. Be sure to check out the Alzheimer's Association for your city's date, time and location.

Please let me know if you have any questions or if I can be of support. Working together for a world without Alzheimer's and related dementia. #ENDALZ

## A Note from the Administrator

Leslye Robinson

As the season change from winter to spring, and we leave behind the frigid winter temperatures we are excited to see the blooming flower and awakening animal as the earth seem to come to life again. The feeling of renewal and growth that comes with spring is not just for nature, but a feeling we can bring into our lives and homes. Why not use this season of renewal as an opportunity to clear our minds and home? Spending time with nature is often the best medicine, and it provided us an opportunity to connect to the earth, which can help us to put our lives into a more meaningful and less stressful perspective. This season commit yourself to healthy and positive practices like spending time outdoor in the sun and take the time to roll up yourselves and wipe away winter. I promise, you will feel refreshed and rejuvenated after the cleaning is done. This is OUR YEAR to open our window and let the fresh breeze of Spring enter in our lives with Sunshine!!

## Wearing Of the Green

It's hard to imagine a color other than green dominating St. Patrick's Day celebrations, but for centuries, blue was associated with Ireland. One reason for the color switch was the Irish Rebellion of 1798, an uprising against British rule in which Irish soldiers wore green uniforms. As made famous by the lyrics of the ballad "The Wearing of the Green" people began displaying the color as an expression of national pride. An Irish Wish-"May your thoughts be as glad as the shamrocks. May your heart be as light as a song. May each day bring bright, happy hour that stay with you all the year long"
