We all strive for approval in some form or fashion. As young children, we sense that we need to seek approval from our parents even before we have

learned to walk and talk. We next learn that we need approval from our teachers as we have our academic performance graded and as we experience test after test.

As we grow and become more social beings, we often feel the need to fit in, so we strive for approval from our peers. As we enter the working world and build careers, many learn that our success can be directly related to securing the approval of various stakeholders, often those with organizational power.

However, when does the need for approval from others become ‘all encompassing’ and dysfunctional in our lives? Many years ago, famed business consultant and author, Peter Drucker, provided us with this insight, “We are here on earth to make a positive difference, not to prove how smart or right we are.”

The need for external approval kills our individual creativity and our freedom. Aristotle said, “Criticism is something you can easily avoid by saying nothing, doing nothing, and being nothing.” While it’s easier said than done, a simple recipe for overcoming an unhealthy need for the approval of others is to quiet your mind, and simply listen to your own heart and flow with the energy that comes from within. Your guidance for your decision making will then be a balance of what you learn from others, and from your own self-confidence, and not from an unhealthy reliance on the opinion of others.

IN THE NEWS

All About May

Rick Banas

- In May of 1875, Ben Franklin announced his invention of what we now call Bifocals. His eyesight became worse as he aged. He became both near-sighted and far-sighted. Tired of switching glasses, he devised a way to fit both types of lenses into one frame, with a lens for distance at the top and a lens for seeing close-up at the bottom. He called them “double-spectacles.”
- American folk hero “Wild Bill” Hickok was born on May 27, 1837, in Troy Grove, Illinois. The small town in LaSalle County, Illinois, is located about 20 miles northwest of Heritage Woods of Ottawa. Hickok was shot and killed during a poker game in a saloon in Deadwood, South Dakota. It is said he was holding what became known as the “dead man’s hand” – a pair of black aces and a pair of eights.
- In May of 1875, the first Kentucky Derby horserace took place at Churchill Downs in front of a crowd of 10,000 spectators.
- Clara Barton founded the American Red Cross on May 21, 1881.
- Construction began on the first modern skyscraper in May 1984. The 10-story Home Insurance Company building is located at Adams and LaSalle in Chicago. The building was supported by a revolutionary steel frame.
- The first National Hospital Day was celebrated on May 12, 1921, in honor of the birth of Florence Nightingale.
- On May 19, 1930, African American playwright Lorraine Hansberry was born in Chicago. She is best known for her play “A Raisin in the Sun,” which was the first stage production written by a black woman to appear on Broadway.
- Cheerios began hitting store shelves on May 1, 1941. Originally, the cereal went by the name CheeriOats.
- May is National Stroke Awareness Month. The American Stroke Association reminds us that acting F.A.S.T. can mean the difference between recovery or disability, life or death.

F = Face Drooping

A = Arm Weakness

S = Speech Difficulty

T = Time to call 911.

Other symptoms can include numbness, confusion, trouble seeing, trouble walking, and a severe headache.

WELLNESS

Will April Showers Bring May Flowers?

Meghann Giarraputo MSN, RN

Will the April showers (or the occasional sprinkle of snow for some of us) bring May flowers this year? Given the vast benefits of spending time outdoors, it would be valuable for us to step outside to check it out!

According to the Centers for Disease Control and Prevention (CDC), spending time outdoors can improve overall health and wellness; specifically, time spent in nature can promote and improve our mental health while reducing stress. Additionally, time outdoors typically lends an opportunity to engage in increased physical activity. Moreover, the Institute on Aging (IOA) shares short spans of direct sunlight exposure can help us to meet our daily requirements of Vitamin D. Vitamin D helps our bodies to absorb calcium which impacts our bone health.

So, regardless of where the “May Flowers” are (and, of course, in consideration of weather conditions and safety), will you bring a buddy and join me in spending a few minutes each day to engage in nature right outside your door? Talk with a member of your Community Leadership Team today about upcoming opportunities where you can experience the beautiful outdoors while reaping the countless benefits.

**As a friendly reminder, for resident health & wellbeing reasons, along with emergency preparedness and response reasons, we encourage residents to sign out and back in at the front desk of the Community when leaving the indoors at the Community.*

Recipe Corner

Air Fryer Sweet & Spicy Meatballs

- 2/3 c. quick-cooking oats
- 1/2 c. crushed Ritz crackers
- 2 lg. eggs lightly beaten
- 5 oz evaporated milk
- 1 Tbs. minced onion

Love on a Leash

Evelyn S. (Resident)

Dogs have played an important role alongside humans throughout ancient and modern history. One of their most recent areas of service falls under the category of “Therapy Dogs”. Therapy dogs bring joy and comfort to residents in facilities such as Heritage Woods of Belvidere. They and their volunteer owners undergo an extensive training schedule to become certified for that purpose by an authorized agency. HWB is fortunate to have four of these remarkable animals on our activity list, and they are being introduced to you below:

Zoey, a Belgian Malinois mix, is a shelter dog rescued by her owner, Debbi, when she was just six weeks old. She joins our beloved therapy dog, Brodie. Now three years old, Zoey comes from a herding dog breed, and considers the residents of HWB her “herd”. The breed is also renowned as police dogs, which accounts for her intense personality, but she is attentive, loving, and interacts well with her human “herd”.

Tessa, a Labrador/German Shepherd mix, was adopted by her owner, Kathy, from a rescue agency in Belvidere. According to Kathy, Tessa was mischievous as she was maturing, but has since developed a ‘cool and calm’ personality. She exhibits empathy for the residents and adores the attention they give her as much as she enjoys expressing her affection for them. Tessa began visiting HWB this past fall and has already acquired an appreciative ‘following’. She is eight years old.

Precious, a Golden Retriever/German Shepherd mix, is a rescue dog from Huntley, Illinois area. Now 11 years old, she has been a therapy dog for five years. Sweet in nature, she has a loving and friendly disposition, and obviously enjoys the ‘cuddling’ she receives from the residents. Precious and her partner Tessa divide their time at HWB by being present in the TV lounge for half an hour and the remaining time is spent visiting residents in their apartments. **Pictures continued on next page.**

Consult your weekly calendar and daily activity board for dates and times for the Therapy Dogs. Brodie, Zoey, Tessa and Precious will welcome you with Love on a Leash! Apartment visits can be scheduled with Madison.
