The Senior Living/Healthcare industry lost over 200,000 workers during 2020-2022. These 200,000 people have not returned to the Senior Living/Healthcare workforce. In an industry where people are at our core, we want to

encourage others to consider a career in Senior Living. As a career path Senior Living offers an extensive upward path. Entry as a personal care attendant while in school can lead to certification, professional licensing, supervision, to executive positions. We would like to encourage each of you reading this newsletter to encourage a high school or college student who is considering Senior Living/Healthcare as a career to work part-time in a senior living community. Here are some reasons why it would be beneficial:

1. **Relevant Experience:** if a student is pursuing a degree or career in Senior Living Healthcare, working in the field will provide them with valuable practical experience. This can enhance their understanding of the industry, help them develop essential skills, and make them more competitive when applying for future Senior Living/Healthcare-related positions.
2. **Networking Opportunities:** Working in Senior Living/Healthcare will allow a student to meet professionals in the field, including owners, physicians, nurses, administrators, and other Senior Living/Healthcare staff. Building relationships with these individuals can lead to mentorship opportunities, letters of recommendation, and potential job offers down the line.
3. **Flexibility:** Our communities offer flexible work schedules making it easier to balance a job alongside studies. This flexibility can allow a student to gain work experience without compromising their academic commitments.
4. **Financial Stability:** Working a part-time job in Senior Living/Healthcare can provide a student with a steady income to support their education. Senior Living/Healthcare jobs often pay well, especially for positions that require specialized skills or certifications.
5. **Personal Growth:** Working in Senior Living/Healthcare can be incredibly rewarding, as a student will have the opportunity to make a positive impact on people's lives. It can also teach them valuable life skills, such as empathy, problem-solving, teamwork and leadership, which can be beneficial in both their personal and professional life.

As you or someone you know prepares to go back to school, please consider the opportunities a part-time job in Senior Living/Healthcare provides. Senior Living/Healthcare will always need People fueled by purpose. At Gardant we honor our mission by providing **vitality** to all residents and employees. Contact us to learn more about our career paths at <https://www.gardant.com/contact/>.

IN THE NEWS

ABOUT THE MONTH OF AUGUST

Rick Banas

In a regular year, no other month of the year starts on the same day of the week as August. In a leap year, only the leap month of February starts on the same day of the week as August.

The sandwich was invented in August 1762 when the Earl of Sandwich requested two slices of bread with meat sandwiched in the middle.

During the month of August, bamboo can grow up to two inches an hour.

On Aug. 18, 1920, the 19th Amendment to the U.S. Constitution was ratified, granting women the right to vote.

On Aug. 14, 1935, President Franklin Roosevelt signed the Social Security Act, creating social insurance for retired workers 65 years of age and older. Average life expectancy in 1935 was 59.9 for men and 63.9 for women.

Dr. Martin Luther King, Jr. delivered his “I Have a Dream” speech on Aug. 28, 1963 from the steps of the Lincoln Memorial in Washington, D.C. One of his dreams was that “my four little children will one day live in a nation where they will not be judged by the color of their skin but by the content of their character.” He also talked about living in a country where “little black boys and little black girls will be able to join hands with little white boys and little white girls as sisters and brothers.”

August is National Peach Month and National Eye Exam Awareness Month.

Aug. 3 is National Watermelon Day. Watermelons are more than 90% water so they are great for hydration. They are low in calories and packed with antioxidants and nutrients such as Vitamins A and C, potassium, and magnesium. The first recorded watermelon harvest occurred 5,000 years ago in Egypt. Early explorers used watermelons as canteens. In the United States, five states – Florida, Texas, California, Georgia, and Indiana generally grow the most watermelons.

WELLNESS

Benefits of Game Play for Seniors

Deborah Denham RN, MSN, CPPS, CPHRM

Games help connect us to those around us in an entertaining and meaningful way. Play motivates the senses, invigorates the imagination, and keeps the memory sharp.

Illinois's Affordable Assisted Living Coalition sponsors a Wii Bowling Tournament and a Spelling Bee for the Supportive Living Communities. The communities have teams that compete virtually with other teams at other communities. In the end two teams will go to Springfield in October for the "Wii World Series" to vie for the coveted title of Wii World Series Champion. The top team from each region for the Spelling Bee will compete in person for the Championship in Springfield in October.

Playing games is important because they can improve memory and help with age related memory loss because stimulating the brain with numbers, letters, colors, etc. enhances brain function. It is like exercise for your brain. The benefits go beyond the brain and promote independence, physical activity, friendship, and more.

Playing card games can improve short-term and long-term memory. Did you know Warren Buffett, 92, and Bill Gates, 67, regularly play bridge? A British Medical Journal study notes that the risk of dementia was 15 percent lower in board game players than in non-players.

There are side effects to playing games though. Playing board games can reduce stress and create more happiness. Playing board games triggers the release of endorphins, the body's natural "feel-good" chemicals. "Happy hormones" have the power to improve mind functions, leaving a person feeling cheerful, compassionate, and ultimately content. Physical games can improve balance, stretching, strength, coordination, and reflexes. If you are not already taking full advantage of the gaming activities at your community, consider the benefits and the time well spent. Enjoy!

Recipe Corner Watermelon Pizza

Ingredients

- 1 seedless watermelon

Cream Cheese Glaze

- 4 ounces cream cheese softened
- ½ cup Greek yogurt
- ¼ cup powdered sugar
- 2 tablespoons fresh squeezed orange juice

Fruit Toppings

- 2 cups sliced strawberries sliced strawberries, diced peaches, blueberries, raspberries, kiwi, halved cherries, etc.

Garnish

- Mint leaves or edible flowers (optional)

Instructions

1. In a medium bowl, beat softened cream cheese until nice and smooth.
2. Add the Greek yogurt and fresh squeezed orange juice and beat until smooth.
3. Add the powdered sugar and mix until completely smooth.
4. Cover and chill while preparing fruit.
5. Slice watermelon about 2 to 3 inches thick and then cut into wedges.
6. Spread a couple tablespoons of the cream cheese glaze on each slice being careful not to have it run off the edge.
7. Add an fruit toppings.
8. Add choice of garnish and serve immediately.

A 60 year love story: Kenneth & Patricia were the first couple to ever marry in the Nazarene Church on Fourth Street in Boonville on 7/20/1963. Patricia was originally from near Tell City, IN and Ken has lived in Boonville his whole life. They have two children, Barry and Kela along with four grandchildren: Blake & Kelsey , Grace and Grant . Blake is married to Alexis who they consider a Grand! And Kelsey is getting married to Grant in November. Their kids and grandkids are their pride and joy!

Ken retired from Whirlpool, Alcoa and the Warrick County School Corporation where he put in a lot of time and made a lot of good friends. Ken is a huge sports fan and can talk for hours about the Cardinals and Hoosiers! He's a hard working, honest man and his family loves him very much!

Patricia retired from St. Mary's hospital after 25+ years to watch her grandkids when they came along. Pat has always been great at taking care of others, especially the babies. Patricia still has many friends from her work years and before. She is funny and her family loves her very much!

They have taken trips around the United States. Enjoyed their siblings and families thru the years. And have always had everything they need!

Their party celebrating their 60th Wedding Anniversary had over 70 visitors, family and friends stop by and visit and have a cupcake.

Only a few people are fortunate enough to experience a love like theirs!

Congratulations, Ken & Pat!

Horoscope

Aquarius (1/20-2/18)

Express your feelings and get involved. This will greatly enhance your relationships with others.

Pisces (2/19-3/20)

Uranus and Jupiter continue to promote your success and expansion while preserving your achievements.

Aries (3/21-4/19)

Prepare to evolve this month.

Taurus (4/20-5/20)

Take the opportunity to take care of your loves.

Gemini (5/21-6/20)

The stars in Leo are improving your daily life.

Cancer (6/21-7/22)

Luck is doing things right and at the right time.

Leo (7/23-8/22)

Let go to make space for what you're inviting in.

Virgo (8/23-9/22)

Stay present to gauge what you're capable of at any given moment.

Libra (9/23-10/21)

Take it easy this month as you recharge your socializing batteries.

Scorpio (10/22-11/21)

Listen carefully to what people tell you and be more available to those you love.

Sagittarius (11/22-12/21)

Make every effort to realize your dreams.

Capricorn (12/22-1/19)

Now is the time for change; so grab luck and go!

In coloring, there are no mistakes;
just unique creations.
