

COMMUNITY VISITOR GUIDELINES

We are excited
to see you!

The health, safety, and wellbeing of our residents and employees is our highest priority. Given the vulnerability of our Community residents and to ensure the highest level of infection prevention and control, we ask that you partner with us in adhering to the guidelines reviewed within our Community Visitor Guidelines.

GENERAL VISITOR SAFETY GUIDELINES INCLUDE:

- Screening of all who enter the Community for signs and symptoms of COVID-19 (e.g., temperature checks, questions about and observations of signs or symptoms). *If you develop signs and/or symptoms of COVID-19 within 48 hours following your visit, we ask that you promptly notify the Community Administrator.*
- Engaging in hand hygiene at key moments.
- Proper use of a face covering or mask (covering mouth and nose) at all times.
- Physical distancing of at least 6 feet between others.
- Use of the Community's dedicated entrance for entering and/or departing from the Community.
- Unless otherwise directed by a health authority, visits may occur outdoors (preferred over indoors, weather permitting), in dedicated indoor visitation spaces, and in resident apartments.

**Any individuals who are observed to have and/or report signs or symptoms of COVID-19 and/or individuals who have had close contact with someone with COVID-19 infection in the prior 14 days (regardless of the visitor's vaccination status) will not be permitted to enter the Community. Visitors who are unable to adhere to the core principles of COVID-19 infection prevention, including our Community Visitor Guidelines, are not permitted to visit.*
