

VISITOR ALERT!

EFFECTIVE IMMEDIATELY

For the health of our residents, staff, community and YOU, we are initiating temporary visitation standards.

Effective immediately, we are temporarily curtailing social visits, *unless there are special circumstances.**

Please reach out to the administrator to review individual situations.

Individuals authorized to enter must also pass the following screen:

- Be free of respiratory symptoms, such as fever, sore throat, cough, new shortness of breath
- Not have a history within the last 14 days of travel to areas where a COVID-19 outbreak has been confirmed, including affected U.S. communities
- Not have a recent employment history in another healthcare setting with confirmed COVID-19 exposure.

Upon entry into the building, all staff and visitors **must wash their hands** or use alcohol-based hand sanitizing gel and frequently wash hands while in the building.

During this respiratory illness season, our community is taking extra precautions to ensure the continued health and safety of our residents. We remain focused on providing exceptional care and service for our residents, and this includes taking precautions required to limit the spread of illness.

We appreciate your understanding and assistance during this time.
